

Greek Tunnelling Society (GTS) & Young Members (GTSym)

Webinar Invitation

The Greek Tunnelling Society and its Young Members Group invite you to join a Webinar presented by Mapei on

“Innovations and Solutions in Tunnelling”

Monday, 18.10. 2021

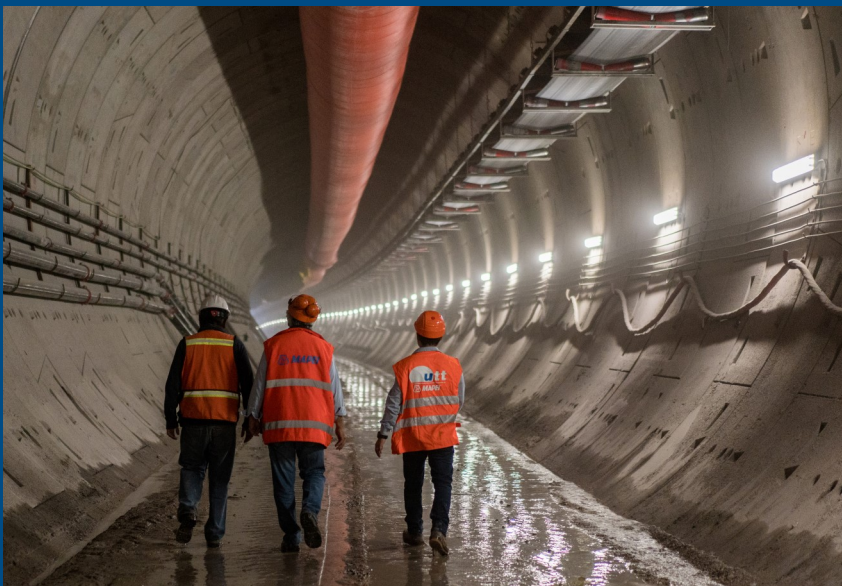

17:30 -19:30 (UTC +3)

Please register at:

<https://forms.gle/o7g1KSFumEz6JUfs9>

The Webinar will cover the following topics:

- A. TBM: technological innovations and solutions for lower environmental impact.
- B. Waterproofing: PVC, sprayable and fully bonded membranes.
- C. Brief overview of protection of tunnels from fire.

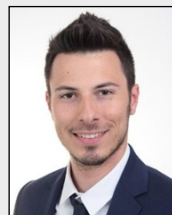

Speakers information:

Alessandro Boscaro has been a member of Mapei since 2007 and currently holds the role of UTT Mechanized Tunnelling Market

Manager, based in Milan, Italy. He graduated from the Politecnico di Torino with a degree in Environmental Engineering and a specialisation in underground constructions. Mr. Boscaro has an international background in mechanized tunnelling with experiences in several projects all around the world, particularly in soil conditioning and backfill grouting.

Stefano Anzani joined Mapei in 2021 as a UTT Waterproofing Specialist and he is based in Switzerland. He graduated from the

Politecnico di Milano, Italy with a degree in Physics and Materials Engineering. Mr. Anzani has an international background in waterproofing engineering with contracting companies.
